CREATING NETWORK & ROLES

VPCs & Subnets

IAM policies & Roles

CREATE CLUSTER COMPONENTS

EKS

We'll create a managed
Kubernetes Cluster

IAM roles for Node Groups

CREATE NODE GROUPS

On-demand worker nodes

Has better reliability

Spot worker nodes

Helps save money

Configuring Kubectl

NOW, CREATE YOUR OWN KUBERNETES CLUSTER ON AWS!

Learn & gain confidence by understanding creation of a Terraform script which deploys a production grade Kubernetes Cluster.

Check out the step-by-step project guide for it!
